ESSENTIAL 21ST CENTURY LEADERSHIP SKILLS

INTRODUCTION TO RISK MANAGEMENT

Open to anyone who would like to understand the essential terminologies, categories of risks, and risk management approaches and tools which they can apply to their organizations.

ABOUT THE COURSE

Risk management is essential for the success of any organization. With sound knowledge of the theories, principles and practices of the discipline of risk management, organizations will be able to effectively identify, assess and manage problems. The course provides a solid overview of the entire risk management process including how to identify risk, introduction to risk analysis and how to respond to risk. This course also introduces higher levels of risk management maturity such as Enterprise Risk Management.

WHY CHOOSE THIS COURSE?

Successful organizations take risks to stay competitive and relevant in the industry in which they are situated, and more than ever they need people with the requisite competencies to manage those risks. This course introduces an understanding of the skill sets and practices required for assessing and managing risks.

WHAT WILL I LEARN?

- Introduction to the field of Risk Management
- The Risk Management Framework
- The Risk Management Plan (RMP)
- Risk Identification
- Risk Analysis
- Risk Responses and Controls
- Introduction to Risk Frameworks – ISO 31000
