ABOUT THE COURSE

This course will help candidates to develop the knowledge and essential skills necessary to implement health and safety best practices.

Candidates will learn to identify hazards in the workplace, principles of risk assessment, gain practical health and safety skills, and how to implement a health and safety management system.

WHY CHOOSE THIS COURSE?

At the end of the course, students will be able to:

- Understand why health and safety needs to be managed.
- Know how to ensure proper health and safety procedures are in place.
- Inspect workplaces to identify common hazards.
- How to manage risk using PPE.
- Apply the principles of risk assessment.
- Implement and recommend control methods.
- Improve the organization's safety culture.

WHAT WILL I LEARN?

- Why and how health and safety is managed.
- Workplace hazards
- Personal Protective Equipment (PPE)
- Risk assessment
- Control measures
- Recordkeeping & Reporting

ASSESSMENT

This course is assessed by a 45-minute examination in controlled conditions.

DURATION

18 Hours

COST

\$36,000.00

CERTIFICATION
