ABOUT THE COURSE

This course provides an introduction to the methodologies and practices of Performance Measurement and Evaluation to be applied in a variety of contexts.

WHY CHOOSE THIS COURSE?

Success in the workplace requires more than possessing relevant knowledge. An organization's employees must also have the necessary competencies to think critically, measure, evaluate and communicate project goals and outcomes. This course provides participants with adequate foundational knowledge and skills to offer performance measurement and evaluation services with confidence in a variety of contexts.

WHAT WILL I LEARN?

This course will introduce you to the fundamentals of Measuring and Evaluation:

- Differentiation and interrelationships between Measurement and Evaluation
- Understanding the need for, and importance of, measurement and evaluation
- Examination of the roles and benefits of measurement and evaluation
- Introduction to concepts and practices of measurement and evaluation
- Understanding process and outcome evaluation
- Steps in developing Evaluation Plans
- Data Source and methods of collection
- Introduction to the use of qualitative and quantitative analytical tools for analyzing project data.

COST

\$36,000.00
