ABOUT THE COURSE

This course is designed specifically for construction personnel who want to understand and appreciate the value project management can bring in helping to execute effective construction projects.

WHY CHOOSE THIS COURSE?

As Guyana continues to develop, there will continue to be high demand for skilled construction project managers. Students will gain valuable skills and knowledge that can be applied in various industries. Throughout the course, students will also develop a better understanding of how to lead construction projects, including the challenges that a construction project manager may face and the skills that will be helpful in planning and coordinating construction related projects to ensure timely completion and meeting quality standards within budget.

WHAT WILL I LEARN?

The course consists of 8 units:

1. Project Management Frameworks
2. Risk Management
3. Estimating and Bidding
4. Understanding the Contract
5. Choosing correct Materials, Equipment, Tools & Skilled Man-power
6. Project Schedule
7. Financial Management & Progress Management
8. Change Order Management

COST

\$50,000.00
